1. picked this clone to grow up + sub-cloned into H13

Southern
Probed w/
λgt11 DB60
fragment

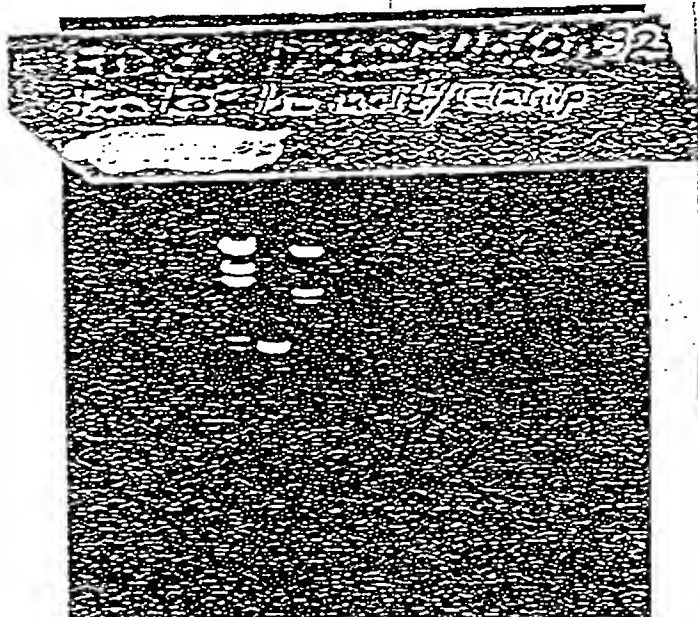

NITro 32 label
blot

DB60 R32 - clone selected for Hues - DNA
 Agt II library of screening w/ DB60
 EcoRI fragment - picked in 1st screen
 w/ 2 p17LF antibody

insert cut for Agt II, & subcloned
 into KS+ bluescript phagemid

grown up in 50 ml of NM522 cells,
 phagemid prep of 50 ml, run 10 µg
 on low salt gel + cut out EcoRI
 fragment. Run over Clontip column
 (very hard to push low salt went through,
 too much agarose, need smaller slice)

Fragment run on gel w/ marker

Fragment size is
